

DOMAUTICS:
Adding value to living spaces.

The purpose of Absolute Domautics is to provide automation solutions to manage wide range category of premises at an **AFFORDABLE COST** for everyone.

Absolute Domautics is an idea that is a coming together of thought leaders, business leaders, design-thinkers, IT & networking experts from leading global multinationals & realty

sector. The focus is on **PREMISE AUTOMATION** with a view to add value to living spaces, while keeping the operations simple for everyone to fit into their lifestyle. At the same time keeping the

architecture flexible & open to integrate with future developments in the area, keeping in view the **SMART CITY** concept.

Our solutions are simple to install, maintain and operate and integrate into the lifestyle of wide strata of society.

Affordable for Everyone
www.talkinghomes.in

Our solution
For Smart Service providers

- Security, motion, detection, lock, lighting, smart services
- Energy management, premises lighting, water pump, etc.
- IP Protection
- Cloud based Operation
- Free range ready.

When homes communicate, they can contribute better!

- Our Smart Solutions make your home talk to you...
- From anywhere and everywhere - whenever ZIGBEE is available on your smart phone

And it could:

- Alert you in case of an unauthorized intrusion
- Alert you in case of gas leakage
- Would switch off all circuits, if you instruct
- Help you to visually identify visitors
- After a hard day at work, your living space receives you in the best possible environment.

WHY DOMAUTICS?
